

ENVIRONMENTAL POLICY

DEFINITION:

Environment – is surroundings in which an organization operates and this includes air, water, land, natural resources, flora, fauna, humans, and their interrelation.

Surroundings from within an organisation extend to the global system.

AUTHORITY / RESPONSIBILITY:

The Managing Director and all employees of the company

PREVIEW

- M2 Technology Pty Ltd are a supplier of high quality voicemail, call management and audio communication products that are designed and manufactured in Australia.
- We are committed to ensuring that our operations are conducted in compliance with applicable environmental legislation and standards (AS/NZS ISO 14001).
- We believe that sound environmental policy and commitment will reflect in the perception of our company's performance by our customers and employees.
- We have developed a framework to ensure that our activities and services contribute to the well being of the communities in which we operate.

ACTIONS

The company is committed to minimizing any significant adverse environmental impacts of new developments with our products and services.

To achieve this aim the organisation will:

- Have a commitment to use the best processes feasible to minimise the environmental impact of its products and to continuously improve the processes to further reduce pollution.
- Encourage a sense of environmental responsibility among all employees through training, education and communication.
- Endeavour to prevent pollution, reduce waste and consumption of resources such as materials, fuel and energy and commit to recovery and recycling, as opposed to disposal wherever feasible
- Sharing environmental experience and solutions
- Involvement of and communication with interested parties
- Emphasise preventive rather than corrective action;
- Use plant and equipment designed to minimise energy consumption wherever feasible
- Ensure on site service work is planned to comply with any additional client environmental requirements.
- Regular monitoring of technology to reduce consumption of resources
- Management reviews are used to monitor and re-evaluate environmental objectives and targets; and to ensure continual improvement of Environment Management System
- Provide information on our environmental initiatives to the public through our website and publications.
